

1st of April, 2015

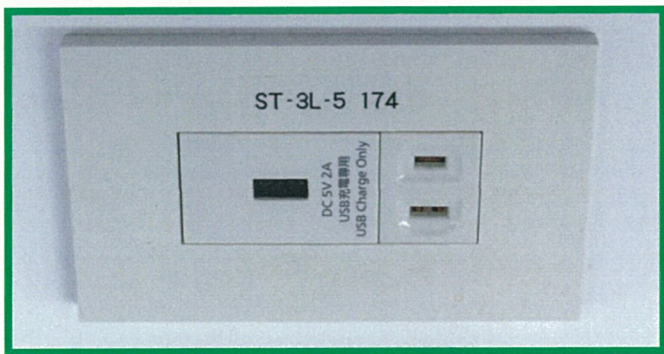

Terminal building has been further
enriched by new facilities !

1. Terrace is newly available in the observation deck of 5th floor.
~ Slopes make the wheelchair users easy to access and enjoy the view. ~

2. USB connection for battery charge is added.

This is nice when a wall
adapter isn't on hand or
when to charge a portable
music player, isn't this !?.

3. Additional 50 baby buggies are put in place.
Besides, 50 compact trolleys are added in air side.

An abundance of buggies reassure flyers with baby especially at midnight
and a plenty of trolleys make an easy access to air gates for duty-free shoppers !

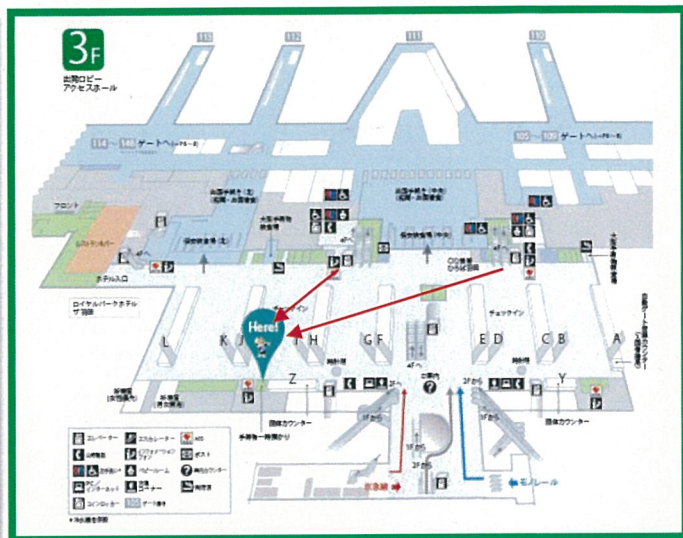

4. 2nd children's play area is now opened
in the vicinity of Gate146 !

✈ - ✈ - Let's play viewing aircrafts - ✈ - - - ✈

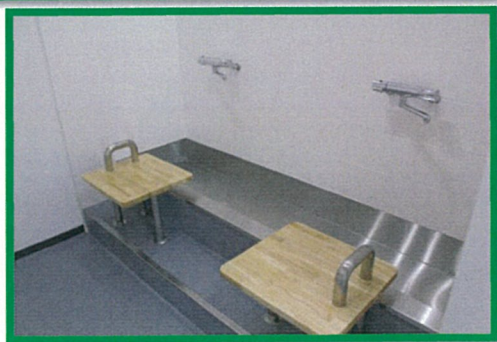

5. Paid cloak of 3rd floor has been relocated !

～ Two cloaks of departure floor were integrated ～

6. 2nd prayer room has been opened next to 1st prayer room on 3rd floor !

～ Two prayer rooms provide an uncrowded environment ～

 **Starry**

Starry takes his name from the Starry Café, TIAT's very own Planetarium Café. As a member of TIAT's public relations team, Starry helps liven up the whole Haneda Airport international Flight Passenger Terminal.
